About Me

I'm a **Python Full-Stack Developer** currently pursuing a **Bachelor of Computer Applications**, with hands-on experience in building scalable web applications. I specialize in **Python, FastAPI, React, MongoDB, and RESTful APIs**, with a strong focus on backend development and a keen interest in **Artificial Intelligence** and Large Language Models (**LLMs**).

In 2024, I secured the **1st Runner-Up** position at the **Hack the Mountain** national-level **hackathon** in Rajkot for my project "PetZone."

Projects Experience

PetZone - Hack the Mountain – 1st Runner-Up (2024)

Pet adoption website created for a national-level hackathon

Tech: React.js, Express, JavaScript, Tailwind CSS
